2017

ReadyDrive Expansion

Full service car rental program expands to offer program to international business professionals in 150+ countries.

IAS INTERNATIONAL AUTOSOURCE

As the experts for internationals, we provide flexible solutions and financing without a local credit history.

Since 1995 we've helped thousands of internationals get behind the wheel of their own vehicle. We know when relocating to another country internationals don't always have the required local credit history or driving record to secure vehicle financing and insurance. While all internationals face the same credit challenges, they each have unique expectations when selecting a vehicle.

Our direct manufacturer partnerships and privileged pricing make it possible for us to provide leasing, financing, and all-inclusive global rental solutions with no local credit history or driving record. These flexible transportation solutions are tailored to international executives, students, teachers, healthcare professionals, returning American expatriates, diplomatic and foreign service communities. Whether relocating to the Americas, APAC or EMEA our Product Specialists are expert consultants, trained to identify the individual needs of each assignee. Using their extensive knowledge of the automotive market, and listening to the client's needs and wants, they work to find the vehicle and program offering to fit each international's lifestyle and budget.

Concierge-level service

Our representatives and call service centers are located in the U.S., United Kingdom, France, Philippines, Korea, Japan and Panama. From the point of first contact to the day the vehicle is delivered, customers receive our concierge-level service from an expert consultant available to answer questions, provide updates, and ensure a seamless transition. Customers are provided assistance with financing and leasing documentation, as well as registration and licensing. And nothing speaks louder than our customer referral program, where hundreds of clients have referred their family, friends and colleagues to IAS. We're proud to help our customers with one of their biggest purchases during relocation, and knowing they trust us with their family and friends is the best compliment we can receive.

We offer virtually every brand including:

IAS INTERNATIONAL AUTOSOURCE

Partner with us

IAS works with major relocation and moving companies, human resources and global mobility managers of Fortune 500 companies. We value our great relationships with our partners and believe that a major component of being a leading expert in the relocation transportation industry is to share this knowledge with our partners to enhance their own programs.

IAS consults with organizations directly to help them create their corporate policy on transportation, as well as allowances. We work with our partners to help them understand the costs involved for the vehicle, whether leased or financed, including how local taxes and fees can add or reduce costs. We share resources for additional services, such as automobile insurance, which operate similarly to IAS and do not discriminate based on lack of credit or driving history. IAS assists assignees relocating to the U.S., Canada, UK and Japan with their personal transportation needs.

Affiliations

"I really can highly recommend International AutoSource to anybody, who is in the same situation that I was as an expat. From the first minute throughout the whole process, I felt very comfortable, because all of you guys at International AutoSource were great.

I was guided through every step of the whole process (searching the right car, the contract, additional packages, insurance and so on) I could ask question as much as I wanted and always got feedback and help really fast. Five of Five stars. All of you thank you very much!"

- Joerg H.

ReadyDrive by International AutoSource (IAS) provides all-inclusive rental cars for international and domestic assignees.

Renting provides the ultimate flexibility to meet changing work assignment schedules or to protect against the risk of an assignment being cut short. It also offers the ability to get a car quickly for a short amount of time while getting settled.

What sets us apart:

- Available globally in 150+ countries
- Preferred rates regardless of location or season
- Comprehensive insurance included
- Flexible direct billing options
- Spousal and employee sharing at no additional cost*
- Concierge services including complimentary quotations, bookings and extensions
- Basic roadside assistance
- Single point of contact
- Satisfaction guarantee
- A wide selection of current model year vehicles

EXPATCapitalGroupSM

A flexible, new vehicle leasing program specializing in assisting individuals new to the United States with no credit history.

An estimated 3 million executives and skilled professionals relocate to the United States each year as part of a position transfer or to begin a new job, and the market is growing. These consumers almost always need a car and sometimes two if relocating with a spouse and children. Despite being employed with a well-documented salary and job commitment, these customers don't fit the approved criteria of most finance and lease programs.

Established in 2015, Expat Capital Group (ECG) specializes in serving this unique market offering a leasing program designed for these international executives new to the U.S. We take pride in helping our customers succeed, one lease at a time, offering best-in-class service and exceptional value. ECG partnered initially with IAS to offer their leasing solutions for many of today's leading automotive manufacturers. Since the launch of our independent leasing company, we have grown from offering our services in a few key states to now over 40 states.

ECG has created a network of dealers throughout the U.S. to source vehicles for sale through our foreign executive program. We also partner with new car franchised dealerships providing them with a foreign executive lease program and also work with customers one-on-one.

International AutoSource is a consumer division of Overseas Military Sales Group (OMSG). OMSG is a group of privately-owned companies that serve the unique automotive needs of international business executives, teachers, students and healthcare professionals relocating to the U.S. We also serve the U.S. military, diplomatic community and Foreign Service personnel working outside the United States. Our goal is to provide an up-front and seamless car buying experience for our international communities.

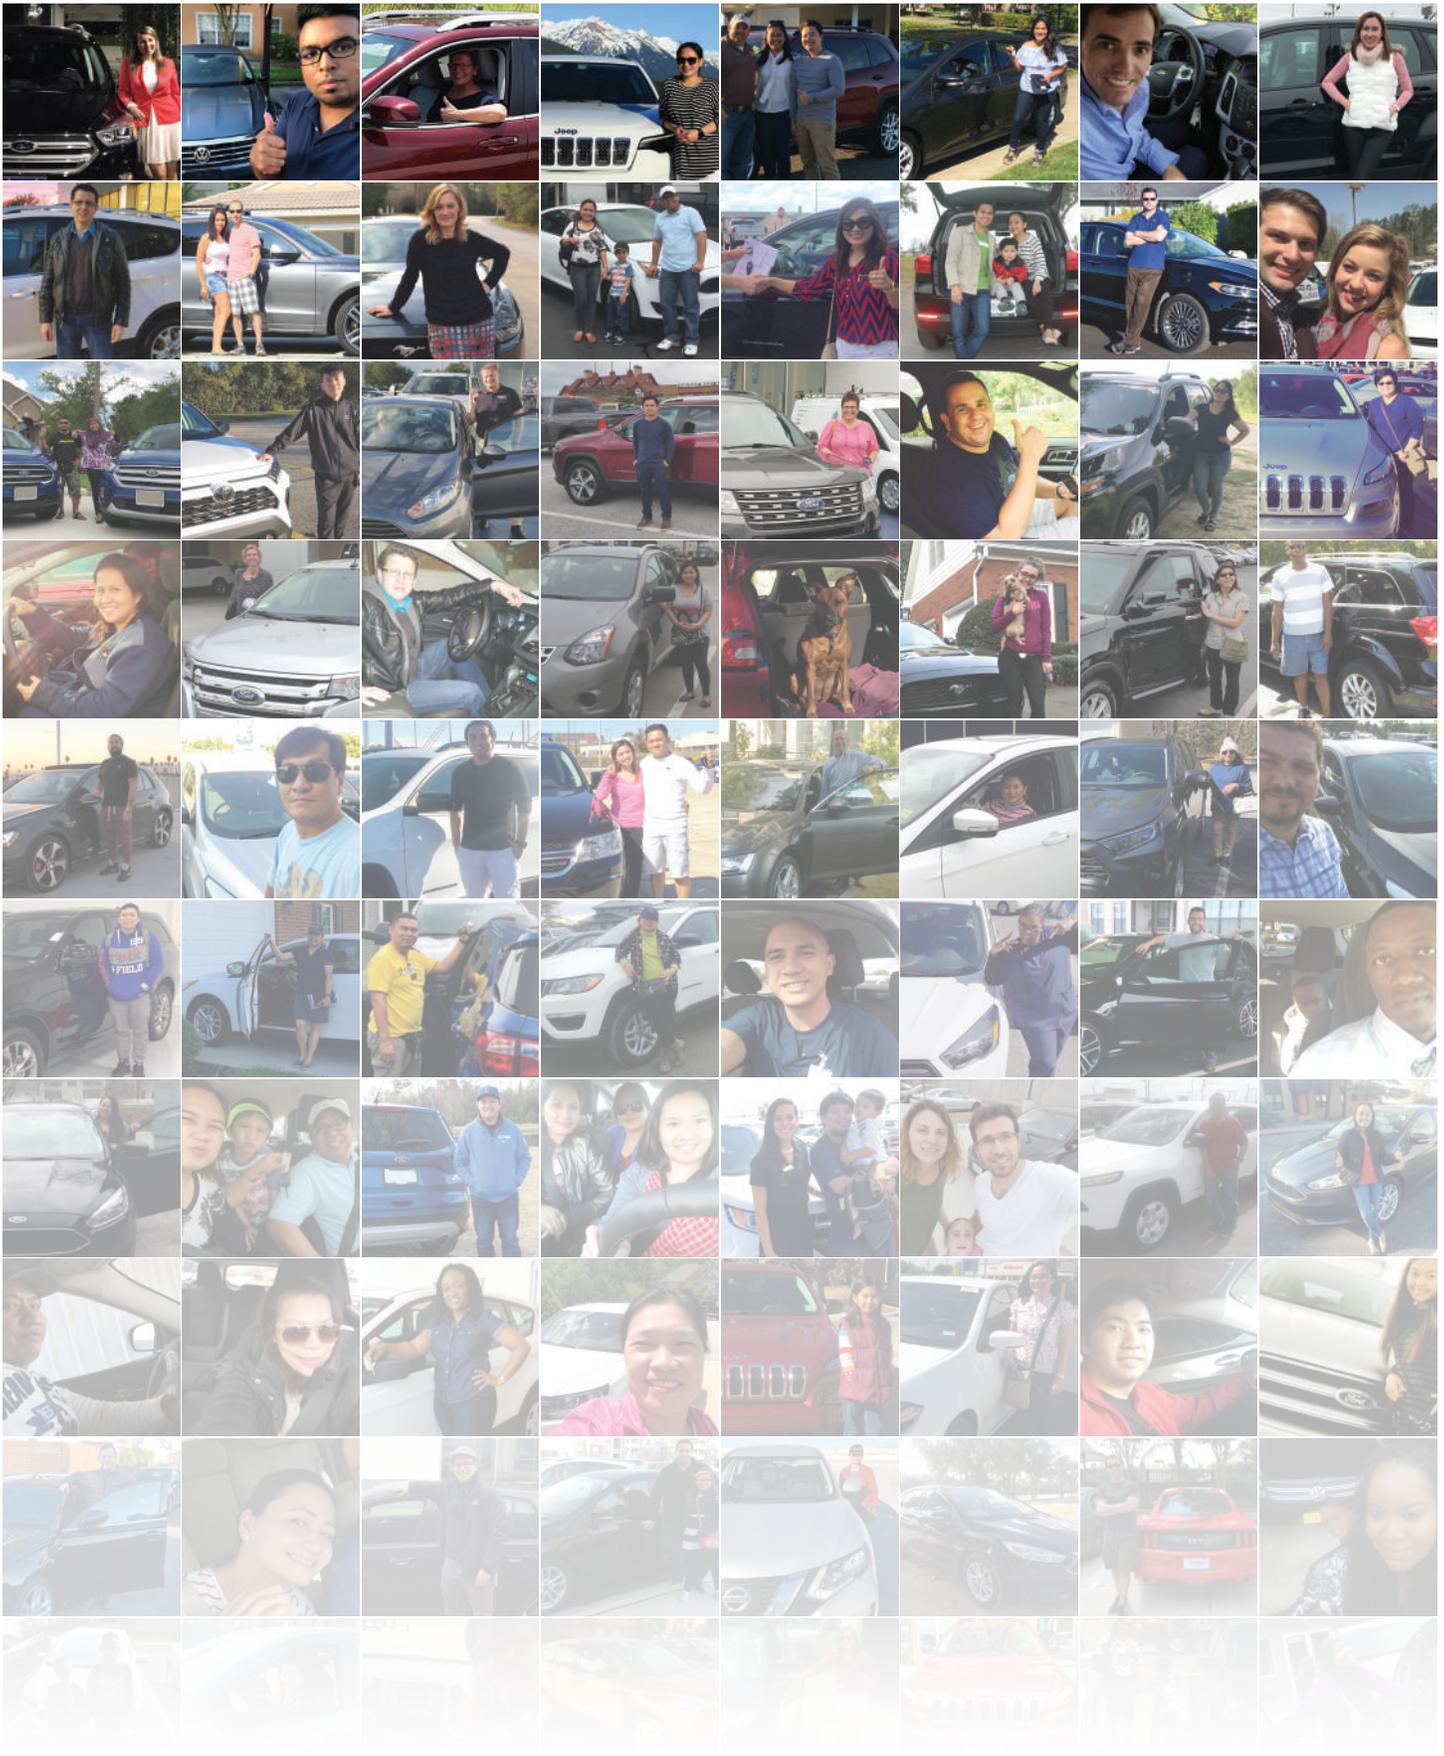

Since 1963, we've served these communities with our expertise in the automotive industry helping thousands of individuals with their personal transportation needs. We've built unique programs tailored to each of these individual needs. Together, we are the largest global distributor of vehicles in the world.

Our mission

Deliver an unprecedented personalized buying experience that is trustworthy, convenient, simple and stress-free.

Our values

- Providing unbiased information and knowledgeable recommendations that best suit the personal needs of the customer.
- Offer highly competitive pricing along with extraordinary service.
- Complete transparency throughout the car buying process.
- Exceed customer expectations with an unprecedented level of value, personalized service, and purchase protections.
